

Braille Sense U2

*The most Powerful, Stable and Fastest notetaker ever!
Study with precision, work with innovation,
play with imagination!*

Powerful and Fast!

Featuring 1GHz Mobile CPU, 256MB RAM and 32GB flash memory, Braille Sense U2 provides power and speed you have never before experienced in a notetaker. Create and save an abundance of files and media with the built-in 32GB flashdisk, SD card reader and three USB host ports. The unique HIMS audio buttons and powerful sound with 11 equalizer settings provide an amazing audio experience beyond other notetakers. Feel secure with more than 17 hours of battery time on a full charge. The user-replaceable battery design allows you to buy a replacement or extra battery for extended use.

Connect Anywhere, Anytime

Stay connected to your friends, family and the world via Ethernet, Wi-Fi (b/g/n) or 3G USB modem.

New Exciting v7.0 Software

Purchase the optional English Dictionary and Thesaurus, and one or more of 5 foreign language dictionaries. Check email from a server anytime using IMAP, and read EML files too. Students and teachers will appreciate our unique Calculator support of fractions and Nemeth. Professionals will value the privacy features of file encryption.

GPS Receiver and Electronic Compass

Improved GPS receiver and electronic compass allow you to explore your surroundings, provide instant, accurate directions or real-time, turn-by-turn navigation to your destination. GPS map data is an optional add-on.
